I howled at the moon with friends
And then the sun came crashing in
But all the possibilities
No limits just epiphanies
This is gonna be the best day of my life
everything is looking up,
everybody up now
This is gonna be the best day of my life

Mrs. Salamone

Spirit Week!!!

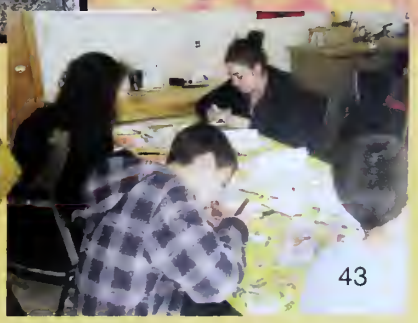

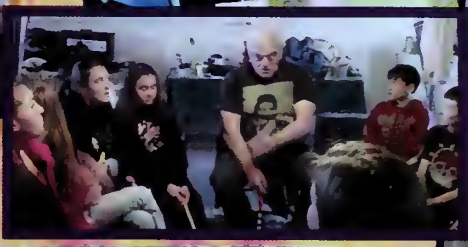

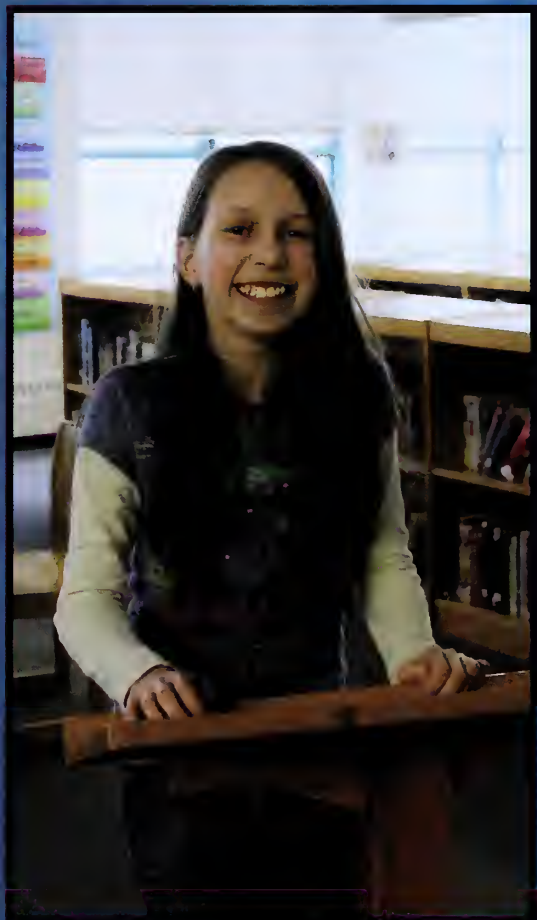

Blast Back to

Bourndale!!!

Student Council

As our awesome 8th grade school year comes to an end, ask yourself: do you see the glass as half empty or half full? Usually when people use this expression, they are talking about how you view your life and your overall attitude. But assume in this situation we are talking about the glass being half full with knowledge. All the experiences you have had so far and the information that you have gained throughout your middle school years has filled your glass to the half way mark. Now, it is up to you to keep on filling it! So when you attend high school or college or other experiences you may have, you will continue to fill your glass with wisdom. Eventually your glass will be full or even overflowing! I wish you you fun and happiness along the way!

Your student Council President,
Sydney Mis
